Southwest General Contractors
811 West 8th
Amarillo, TX 79109

Attention: Gary Purser, President

Dear Gary,

We wanted to write and tell you how much we appreciate the great job you did on our new building. Completion on time and within budget was a welcome surprise. After six months all of the doctors and staff at the clinic have settled into their new areas quite comfortably.

We also have been satisfied with the support your crew has given us when we needed assistance with some of the newer technology with the building equipment. Your patience and support is another reason we are glad we chose your company to do our construction.

We are happy to recommend Southwest General Contractors to anyone planning a building project.

Sincerely,

W. Ken McCarty, O.D.
