Phone: 806-358-0051 • Fax: 806-355-0410

To Whom It May Concern:

Amarillo Kidney Specialist, LLC is a dialysis unit that performs dialysis procedures and training six days a week for two hundred patients. We decided to add a large addition and renovate our facility to accommodate our growth.

There was a bid process and it was decided to contract with Southwest General Contractors. One of the conditions for the bid was that it was mandatory for our facility to care for our patients without interruption of services.

Wes Purser and Mike Ledbetter from Southwest General Contractors instigated a weekly meeting with Jerry Carlile, Chief Operating Officer, and Connie Short RN, Clinical Manager to ensure there was communication between all parties. It was decided to also include the Architect when he was available.

Mike Ledbetter was the Superintendent of the job. He kept us informed and updated on the progress. The subcontractors that were under his supervision were polite and helpful. They went out of their way to provide support to our staff who was dealing with interruptions of their routine. I especially would like to commend Mike Ledbetter because he went above and beyond his job requirements using his leadership to make this a comfortable transition.

We would highly recommend Southwest General Contractors for any expansion, renovation, or new construction.

Connie Short RN CPDN CNN,
Clinic Manager
