WILLIAM WARE
PRESIDENT

June 4, 2018

Dear Gary,

Thank you for building our new 2 suite restaurant property on 7th and Polk. The building is beautiful and sure to be a landmark on the most historic street in Amarillo.

This project is a dream come true for so many in our community. Everyone talks about new life coming back to Polk Street. We hope this building encourages others to re-develop our downtown.

Our entire family is proud of your work. We've been on Polk Street for over 125 years and hope that legacy lasts another 125. I jokingly told the crowd that we've only made it 3 blocks in that time. It is, however, our duty to keep the energy alive in downtown.

We were extremely pleased with the quality of construction and performance of your management team. Jerry Marez always seemed on top of everything and had a great attitude. He said he slept in the building and worked on Sundays, but I think that might be sugar coating.

I also appreciate Chris Moncivais and Clif Burk in their work overseeing the unique project.

We can't wait to see what happens in the future of downtown Amarillo because of this project. You can be proud that you helped initiate this progress.

William Ware
