Re: Regence Health Commendation

Dear Wes,

I just wanted to take a minute to let you know what a tremendous job both Chris and Tommy have done on the Regence project. It has been a complicated project and they have both handled themselves and the project in a professional manner. They demonstrated knowledge and expertise throughout the project helping avoid pitfalls thanks to their forethought. Their demeanor inspired confidence in the project team and was a key component in making this a successful project.

I have thoroughly enjoyed working with them both Chris and Tommy and look forward to teaming with Southwest GC on future projects.

Sincerely,

PARKHILL, SMITH & COOPER, INC.
