To Whom It May Concern:

Please allow this to serve as an unqualified recommendation for using Southwest General Contractors on your next construction project.

My firm, Gary Strickland Co., acted as Amarillo Community Federal Credit Union's representative on their new branch in Pampa, Texas. Southwest General Contractors (SWG) was selected to build the new facility and did an outstanding job, in our opinion. The project was accomplished timely, as promised, and in strict accordance with the plans and specifications.

Mr. Steve Duncan acted as Project Manager and Mr. Donnie White as project Superintendent for SWGC. They both were very professional, truthful in their representations and conduct, and detailed in their performance.

As a financial institution, the project had several other separate contractors and suppliers that required SWGC to coordinate with and into their work. These included demolition of existing building, bank equipment, pneumatic tube systems, security and alarm systems, ATM, night depository and landscaping. SCGC performed the coordination of these expertly and without mishap.

Without hesitation or reservation, GSC wholeheartedly recommends Southwest General Contractors for any similar project.

Please feel free to call me if desired.

Gary Strickland, President  
Gary Strickland Co.
